

As Seen on ITV'S LK Today and This Morning!

Finally, A Truly Powerful Anti-Ageing Breakthrough Reveals...

How You Can Look As Young As You Feel

Lift, Firm, and Erase Years
From Your Face...
Without Surgery or Injections

What's all the buzz about this mysterious breakthrough that tones and firms facial contours, diminishes the look of under eye bags and dark circles, and uncovers more youthful, soft, and dewy skin?

Former skin care specialist to Hollywood stars and a leading expert on non-surgical anti-ageing tells exactly how you can look as young as you feel.

Read on to find out more.

Dear young-at-heart friend,

How much would you love to wake up one morning, glance at yourself in the mirror, and see a new younger reflection smiling back at you? No more puffy bags under your eyes, dark circles or "raccoon eyes", or wrinkled sagging skin.

How would you feel if you looked 10 or even 15 years younger than your actual age? Or when friends you haven't seen in some time, barely recognise you because you look so much younger.

And most importantly, how would you like to find the perfect balance between how you look and the age you feel inside?

This could very well happen you know.

I must confess I absolutely love hearing about how people just like you have renewed their appearance and in some cases have even renewed their life. Nothing gives me more satisfaction.

What gets me really excited is that I know it's possible for you to do the same.

And you can do it... without painful and risky surgery, without collagen or Botox® injections, and without spending thousands of pounds in the process.

I understand if you are sceptical. After all, you can hardly pick up a magazine or turn on the television without being bombarded by outrageous false claims, hype and hoopla about how to look younger. Frankly, if you're like me, you're rather sick of it.

And that's why I believe you're going to be very excited when you read this...

Lynda's Story

For Lynda, it all started in 2004 when she was enjoying a wonderful holiday with her family. She had always taken good care of herself. Her hair was nicely done and she looked after her skin. But when she saw the photos from the holiday she was shocked. There in living colour was a Lynda she didn't recognise. "My Lord", she thought. "Who is that woman?"

You know how some women have a negative body image? They think they look hideous, but are actually quite gorgeous. Well, Lynda felt the opposite. She laughs when she says this, but Lynda has always actually thought she looked, well, quite gorgeous!

But when she saw the photographs, the reality was a bit unsettling.

Though Lynda felt she still had a lot of girl inside her, a lot of life if you will, she suddenly had these images running through her mind where she looked old, frumpy and fat.

Not at all in tune with how she felt inside.

Taking care of the weight wasn't the hard part. She went on a diet, exercised faithfully and found herself showered with compliments on her new body. But still she was unhappy with how her face looked. Her new trim body made her face look even older and she felt... unattractive.

That unsightly "chin thing" was jiggling around down there, and a once firm jaw line was loose and sagging. Puffy bags and dark circles under her eyes zapped the energy from her face.

Frankly, she looked old and tired.

That's when Lynda began searching for a way to do for her face what she had done for her body.

Her "friend" had spent 8000 pounds on a face-lift and she looked amazing. But because of other things going on in her life, there was no way Lynda could save up that kind of dosh. So she had to look for another way.

She had read about non-surgical facelifts you could get in a beauty salon but they were quite expensive, not to mention inconvenient. So she thought if there is such a machine that lifts your face, maybe there is one you can use at home.

That's when she discovered an amazing non-surgical facelift device and as a result...

An Incredibly Simple Way To Turn Back The Years... And Look Younger And Feel Attractive Again

How is it possible for such a simple device to do such incredible things? How is it possible to achieve such amazing results, your friends will swear you've had "something done?"

It's unbelievably simple. This powerful anti-ageing breakthrough is the key to rediscovering the sculpted and toned, youthful, and vibrant appearance you had so many years ago.

Believe me, even hard core sceptics will be shocked when they see how wonderful you look.

One "doubting Thomas" asked Lynda how she managed to look so much better, so much younger in only two months time. Without a moment's hesitation she replied, "Well, there you are. It's my little 'facelift machine'."

You see, as quickly as two short weeks of using this "magical" device, Lynda was a true believer.

"People Were Telling Me How Great I Looked... And Even Asked If I had Botox® or Restylane® Treatments!"

"My lips were fuller, the little grooves either side of my nose had diminished and the puffy bits under my eyes literally disappeared in a couple of weeks. It only took a couple of days to get used to using it and I am such an expert now I can do it with one hand while doing other tasks. I even take it to work sometimes and 'do it' in spare moments.

The quality of my skin has improved. It looks tighter and my whole face just looks more defined. I also find it very therapeutic. By the time I finish my 'work out' I feel relaxed and comfortable after my stressful job.

I am really so pleased that I bought it and can't recommend it more highly. My friends and family said it would be a five-minute wonder, but I proved them wrong and now they are all envious of my 'new' face. I really can't think of money better spent."

Lynda Gurley, 53

"I Can Speak as a Dedicated Tester of Non-Surgical Facelift Treatments..."

"I just wanted to let you know I have been using my Tua Viso for 6 weeks now and I am delighted with it. To give you a bit of background information I can tell you that this is the fourth facial exercise appliance I have purchased over the past 10 years. The first was the Integra, the second was the Facial Flex which is a peculiar bit of plastic you put in your mouth and squeeze. The third and the one I have used almost constantly for the past 6 years is the Cleo II. This involves sticking pads at various positions on your face. Each exercise cycle takes approximately 20 minutes so that if you want to treat different areas of

your face you need to be able to spare a lot of time. In between all this I have also had several courses of CACI treatments so I think I can speak as a dedicated tester of non-surgical facelift treatments.

The Tua Viso is for me the best by far option. I have achieved excellent results in a far shorter time than Cleo II. I like to start at the forehead and work down spending only 2 minutes on each exercise. Because my jawline is my worst feature I pay particular attention to this. Overall half an hour is usually enough and results are visible quickly. I would have no hesitation in recommending the Tua Viso to anyone else who is suffering from that ageing 'melted wax' look."

Elizabeth Hartley

In fact, over the past year, many people... wonderful people of different ages, some just like you, have had amazing results and really improved their facial appearance... many feel they look younger by up to 10 or even 15 years!

“People Guess My Age To Be 10 and 15 Years Younger Than I Am!”

“I love this product! People regularly guess my age to be 10 and 15 years younger than I am. I had a similar product to this one – but it would be like comparing a vintage Aston Martin to an old banger – no contest!”

Amanda Wilkinson, 49

“I Knew that Facial Exercises Could Arrest the Ageing Process But Never Believed They Could Reverse It!”

“I knew that facial exercises could arrest the ageing process but never believed they could reverse it. However, after using my Tua Viso regularly for six months, I look ten years younger than I did before I started and this wonderful rejuvenation is not over yet.

The changes in my face have been absolutely remarkable. Crows feet and under-eye bags have disappeared. Eyes look larger and lips are fuller and better defined. My neck is smoother. The double chin has almost gone and, as my cheeks are lifted, the hated jowls are also disappearing. As an unexpected benefit, the massage has also improved the colour and elasticity of my skin.

In six months, I'll be 56 - but I no longer dread it. Thanks for the miracle. This is a great product!”

Jan, 55

And you know what is equally exciting?

In the process, they have discovered more self-confidence and feel fantastic about how they present themselves to the world. Because let's face it...

At The End Of The Day, It Is Your Face That Gets Noticed The Most

And my how people have noticed! Frankly their friends and family have been baffled by how they have "turned back the clock" so naturally and inexpensively.

In fact, these people are thrilled when they see themselves in the mirror (one lady remarked she can't stop looking!) because the reflection peering back is soft and natural... no artificial wind-tunnel look that can be part and parcel of invasive procedures.

They love to be around people again. No more worrying about how they look or comparing themselves to the younger set in the crowd. Because they have the self-assuredness that comes along with looking the absolute best you can. Younger, healthier, and more radiant.

And it feels grand to know they did it all themselves without spending thousands of pounds.

Since you're reading this letter, I believe you are finally ready to do something about the troublesome telltale signs of ageing tapping you on the shoulder. Perhaps you've already tried all the expensive lotions and potions out there and you've been frustrated and disappointed time and time again.

Maybe you're tired of throwing good money after bad each time some new miracle cream comes along... that never seems to really work. Even worse, you may be ready to throw in the towel for good and settle for the way you look now... even if it doesn't match how you feel inside.

If that sounds like you, then you're going to be thrilled with what I'm about to share.

You Can Look As Young As You Feel

My name is Tina Richards, one of Britain's leading anti-ageing experts. As a matter of fact, my exclusive clientele has included A-list Hollywood actors - including Jamie Lee Curtis - as well as corporate and medical professionals. I don't say this to boast, but it's important to me that you understand I'm not some fly-by-night "specialist" hanging out their anti-ageing shingle.

"Tina, You Are Very Talented!"

"Tina, you helped me so much during filming and beyond. You are very talented. Soon you'll be directing movies, too. All my love and thanks, Jamie"

Jamie Lee Curtis – Actress

During filming of the motion picture Fierce Creatures

And please make no mistake. Though I've rubbed shoulders with the stars, I'm just a regular person like you. I'm firmly dedicated to helping everyone who so desires to achieve a youthful, vibrant appearance.

I want you to know there are phenomenal truths in this letter that could literally improve the way you look. I've had over 15 years experience in the beauty industry as a facialist, and a BSc Honors intercalated degree in medical science and nutrition. So I fully understand the secrets to a younger, healthier appearance that oozes vitality and a zest for life.

And the first one is...

Non-Surgical Facelifts Are Not The Same

Perhaps you've heard of or maybe even experimented with some of the non-surgical facelift devices out there. If so, you know they can be rather bothersome to use not to mention down right ineffective. Some contraptions operate using only a watch battery – they remind me of little wind up toys - that merely tingle or vibrate your skin.

Which does absolutely nothing to tone and firm your facial muscles.

Others have the potential to produce results, but honestly, they are so complicated and fiddly to use, they'll end up occupying a spot somewhere on your bathroom shelf. You see in order to use them, you have to mess about with wires, sticky pads and conductive gels... who needs that hassle? And there are some models that can actually deliver a little shock to your face if you're not careful!

That's why I'm so thrilled to introduce...

Tua Viso, The First Handheld Non-Surgical Facelift Uniquely Designed To Target The Less-Used Muscle Fibres Of Your Face

You may be wondering what exactly is so special about this unique design. The bottom line is this... when you use Tua Viso, your face will become more toned and firmer, look more beautifully defined, and appear magnificently more youthful in appearance. I urge you to consider just how that would change the way your face appears right now.

But what's all this "science speak" about muscle fibres? Think of it this way.

Your facial skin is attached to a "carpet" of muscles. If these muscles lose their tone and compactness, then your face is left with a weaker structural muscle foundation. So your facial contours begin to sag.

When you think about it, that makes perfect sense. Imagine trying to build a house on quick sand. Without a firm foundation, the house has nothing to stand on. It shifts, sags, and eventually falls. A similar thing happens with your facial skin if the muscle foundation is weakened.

What's more, you may be surprised to hear that when it comes to ageing...

Getting Wrinkles Is Not Your Biggest Problem

The truth is it's the sagging and bagging skin that ages you the most. That's because your face loses definition - it looks tired, droopy, and... old. Just think of unattractive "basset hound" jowls. I'm sure you've seen the look.

So what to do? Well, the really good news is that Tua Viso is specifically designed to zero in on these deep, hidden muscles in your face, toning and firming them back into tip top shape.

Think of it as a "mini-workout" – only for your face. You know when you're exercising your body, how you can actually feel the muscles contracting? And if you keep it up for any length of time, the muscles become firmer, plumped up and more compact.

Now listen carefully... **the same physics apply to your facial muscles as well!**

You see the secret is in this little 'sine wave' microcurrent that creates precise muscle exercises specific for the muscles deep to your facial skin. And yes, you can actually feel it working... muscles contracting in a synchronised rhythm. It's actually a very pleasant feeling, almost like a facial massage.

Once you turn on the power of Tua Viso you'll be amazed at how easily you can...

- Tone and firm a face that's starting to sag and droop, to give a more contoured and lifted appearance.
- Firm your jaw line and jowl area... with use of your Tua Viso your unique facial contours and planes will take on a more sculpted appearance, more like when you were years younger.
- Plump up your facial muscles and give your face the crucial substance, structure and support it needs to maintain its youthful look.
- Flip on the switch that stimulates cushiony collagen and elastin fibres so your skin starts to look more robust, thickened, and smooth. Wrinkles diminish in appearance; many clients insist some are smoothed away completely... and remember Tua Viso helps to prevent future wrinkles.
- Say "good riddance" to the look of puffy under eye bags and dark circles as excess fluid and toxins are gently massaged from your tissues. Instead say "hellooo" to dewy youthful skin that positively glows!
- Delight in your reflection when you look in the mirror and see your complexion has found a clear, healthier looking radiance. (Bonus: your makeup will look luminous and more inviting.)
- Noticeably give your upper eye lid/brow area a more lifted appearance so you look more alert and sparkling with energy.
- Banish the mere thought of ever having a needle or scalpel anywhere near your face. If you're like me and hate even the idea of the teeniest collagen shot... this is huge news!

If you're like many of my clients, you'll begin to see and feel a noticeable difference within a few short weeks. As a matter of fact, you may find yourself saying something like this...

“Within A Couple Of Days I Noticed A Difference”

“What’s so exciting is this... I bought Tua Viso about 6 weeks ago and was quite sceptical at first. I am 38, have 5 young children and I was feeling and looking very tired! I decided to give it a go based on the fact that I could get my money back if I was not happy. However, within a couple of days of using it I noticed a difference.

My skin started to change, it had a healthy glow. The dark circles under my eyes disappeared almost instantly and my face generally looked more toned. My once scrawny neck has thickened up considerably and looks for more youthful.

My eye sockets have opened up and I look far more awake, my mouth is firm and plump.

My mum had a look at me the other day and said ‘you have no lines, that’s amazing!’ It’s so easy to use. I manage the 20-30 minutes a day in short bursts and I reckon that if I can fit it into my routine with 5 children anyone can. I think I would feel really panicked if I didn’t have it now. The results keep getting better and better.”

Emma Quentin, 38

What’s so exciting is this...

YOUR Face Can Have A Healthy Glow and Look More Toned And Youthful Too!

You should be feeling really excited right now, as you realise how close you are to having your wish for a younger appearance finally come true. Women just like you have experienced their fondest dream of a more attractively toned, more youthful looking face. And if you can make a simple but smart decision, you can experience these remarkable results for yourself.

And of course, I’ll want to hear your success story, too!

But I understand if you need more proof that this magical microcurrent really does the job. Well, let me tell you, Tua Viso has stood up under some extremely rigorous scientific testing. It was actually developed by a leading group in the manufacture of professional medical equipment. And when the clever boffins at a well-respected university conducted an independent trial; the clinical research proved there is calculable improvement in facial muscle tone after using Tua Viso for as few as 9 sessions!

Would you like more proof?...

Here’s What The Doctors Are Saying...

“Promises to give lasting youthfulness to the face...”

“The use of Tua Viso at home permits the regular and enjoyable practice of skin and muscle “training” that promise to give lasting youthfulness to the face.”

*Dr. Natalie Blakely
MBBS, BSc, (Hons)*

“Tua Viso will effectively tone and lift your facial muscles...”

“The sine wave induced electro muscular stimulation of Tua Viso will effectively hypertrophy and tone your facial muscles when used regularly.”

*Dr. Lisa Boettcher
MBBS, BSc (Hons)*

“The future of skin-care technology...”

“Electrical stimulation may be the future of skin-care technology”

*New York Dermatologist, Dennis Gross, M.D.
Elle Magazine, Feb. 2003*

“Causes skin to appear thicker and more youthful...”

“Long term use of electrical stimulation causes skin to appear thicker and more youthful, with a vibrant visible glow.”

*Dr. Nicholas Perricone M.D.
‘The Perricone Prescription’ and ‘The Wrinkle Cure’.*

“I’ve see photos before and after... and was amazed by the difference...”

“While we can exercise most muscles in order to maintain them, exercising facial muscles is extremely difficult. Medics have developed a handy instrument that makes it easy to electronically stimulate literally all facial muscles groups. (It’s the same kind of electrical stimulation that is used for muscle rehab, especially in people who are immobilised due to accidents.) I’ve seen photos before and after electronic exercise and was amazed by the difference.”

*Hans Kugler, Ph.D
Founder and President of the International Academy of Alternative and Anti-ageing medicine
Journal of Longevity*

By now it should be quite obvious what a tremendous impact using Tua Viso can have on your appearance.

Imagine if...

- Sagging facial contours were more toned and firm in their appearance
- The look of puffy under eyebags and dark circles was noticeably diminished, even eliminated
- Crows feet and wrinkles were smoothed and softened
- A double chin was more lifted in its appearance
- Unattractive jowls were firmed to reveal a more sculpted attractive looking jaw line
- And a tired and sallow complexion transformed into a healthy, radiant glow.

If you are really serious about recapturing the look you had when you were younger, you'll want to keep these little visions in the front of your mind. And if you are feeling a bit uncomfortable or selfish about this kind of investment in yourself, banish that feeling right now!

Because when you begin to feel good about yourself... when you know you look young and attractive... those positive feelings affect other areas of your life as well. And you focus those positive feelings on all things that really matter to you the most.

You may find yourself embracing life like never before when the new, younger you emerges.

And you can do it quite simply. Because...

Tua Viso Is Practical And So Easy To Use

That's another crucial point to consider. If you're like me, your schedule can get pretty hectic rushing about with all you need to pack in a day. Who has time to drive across town to beauty salons for facial treatments, or mess around with complicated sticky pads, wires, and gels like you'll find with some non-surgical facelifts.

Part of the beauty of Tua Viso is that it's about the size and weight of a cordless telephone. So if you can have a phone conversation, you can easily manage Tua Viso.

It's so portable you can take it anywhere... on a plane, train, or automobile. Once client remarked that when going on holiday, she packs her Tua Viso right along with the travel iron; "I iron out wrinkles in my face as easily as my travel clothes!" she chortled.

And...

It Only Takes Minutes A Day!

You can use it while you're relaxing about watching your favourite television program, or curled up in bed reading a book. Since you can easily manage Tua Viso with one hand, you can even use it while doing chores around the house or checking your email.

And you can use Tua Viso over make-up if you wish as it works really well with damp sponges which incidentally are hand washable; this means you can use your Tua Viso throughout the day whenever you want to and also spread the workout throughout the day if you wish – for example, a few exercises in the morning and a few in the afternoon and/or evening. Or you can do your Tua Viso "workout" in one go. It's completely up to you; whatever works for your own personal schedule.

There is no special equipment involved; it comes with everything you need to get started right away. It operates on a simple 9V battery included in the kit. The only thing you'll need to supply is a little water from your tap! How's that for easy? As a matter of fact, one client told me the hardest part for her was changing the battery!

Once you're ready to begin your first workout session you can refer to the quick reference mini – handbook that shows you exactly how to do the exercises. You may want to pop in the free DVD demo first, though. That way you can see for yourself exactly where and how to place the unit.

Don't fret over using it correctly, every simple step is demonstrated for you.

It really is as simple as one, two, three.

1. Fill the reservoirs with water from your tap.
2. Press on the sponges to moisten them.
3. Switch on the unit and place it on the area of your face to be treated first.

Then get ready for an extremely pleasant and relaxing experience. You'll actually feel your facial muscles contracting... you can feel and see it working! Follow the simple step-by-step guide and in 30 minutes time, your first "facelift session" will be complete.

Tina Richards,

One of Britain's Leading Experts on Non-Surgical Anti ageing

See what Tina Richards has to say in her instructional on-line video, exclusive to the UK. [Click here](#) to go back to the Home page and then click on "*Click here to view Tua Viso Demo Video*".

But It Doesn't Stop There!

You can use Tua Viso every day if you wish so the results quickly get better and better. I recommend you use it at least 5 times a week in the beginning and continue on up to 6 months. And you'll be thrilled with how quickly you see your face transform to a younger image of you right before your very eyes.

"I could see the difference almost immediately... and after just a few months I now look 15 years younger than the photo on my passport!"

“I’ve used Tua Viso for about 6 months. At first I became obsessed with it because I could see the difference almost immediately. I thought if I keep going with this, I’m going to look about 20 in a few weeks!

Initially I did it for 4 or 5 days a week for about 6 weeks. I realised I was quite happy at the 6 weeks stage so I didn’t become as obsessed with it. Now I tend to do it every other day. It’s just so easy you can fit it in any routine.

The biggest benefit for me is that it’s really made me feel confident about myself again. I’m 55 but I think of myself as a young person. Now I feel fantastic about how I look. As a matter of fact, after just a few months I now look 15 years younger than the photo on my passport!

It’s changed my life all together!”

Lynne Woodward, 55

You begin to enjoy all the benefits of looking younger a lot sooner than you think. Day by day you’ll see the signs of ageing gradually and naturally disappear. What that means to you is...

- You’ll never have that startled, surprised expression - like a deer caught in headlights – that you see with some invasive procedures.
- Your eyebrows will never suddenly appear to be 2 centimetres higher than the day before as with many botched plastic surgery jobs.
- You’ll never be mistaken for a runaway from Madame Tussauds... no frozen waxy look that’s so common with injections.

Instead, it really will appear as if the clock just started turning backwards... instead of one day older you will have a much more youthful look. Nothing fake or artificial... but natural. And what could be more beautiful than natural?

But I must be honest. Tua Viso isn’t for everyone. If you would rather spend thousands of pounds on a surgical facelift, or become a human pincushion every few months... Tua Viso isn’t for you.

On the other hand, if you are someone who seriously prefers natural anti-ageing methods (that will not cost a fortune) to invasive procedures, if you are ready to embrace the possibility of looking as young as you feel, then Tua Viso is the answer.

Oh, one more thing. By now it should be crystal clear that Tua Viso really does work.

But there is a catch.

Tua Viso absolutely works to give your face a firmer, smoother and more lifted appearance; it positively gives you a more youthful look... but only if you use it! You really need to be committed to achieving the new, younger look you want. If you've already dusted off a spot on your bathroom shelf for one more preconceived "gadget", then you should probably keep doing what you've been doing for your anti-ageing routine... and keep getting the same results.

So, there is just one remaining question...

“What Would It Mean To You To Look And Feel The Absolute Best You Can Be?”

Take a minute and think about that. You know, when it comes to looking younger, a lot of people dream about it but never go much farther. But I know you're much more savvy than that. The fact that you are still here proves you are willing and eager to welcome a 'new you' with open arms.

Taking care of yourself is much more than a cosmetic issue. It's a deeply personal investment in the quality of life you want to lead. And... in how you present yourself to the world.

Remember Lynda's story? She so elegantly shared with me this fundamental truth. Now I would like to share it with you as well

These are her words...

“The thing about a positive change in your appearance is that it spills into every area of your life. Even if the changes with Tua Viso were miniscule, it wouldn't matter to me, because they were big enough to improve my confidence.

When I look back to those photos of 2004, I was feeling middle age and frumpy. Now I feel beautiful, energetic and confident. Instead of feeling my life is half over, now I feel I've still got much more to go.

Tua Viso was part of renewing myself. Renew yourself and you renew your life. I made some really big life changing decisions about my future. I'll soon be moving abroad and selling my home, doing something adventurous. Getting Tua Viso was all part and parcel of renewing myself – spiritually, psychologically... it had a part to play in everything I do.

It has given me confidence to make decisions I couldn't have made a few years ago because my life will change completely. I know it sounds corny, but Tua Viso was part of that. When you are reinventing yourself it's not just your appearance that gets reinvented. It's your mentality and attitude to life, your optimism. If you can improve your appearance it gives you

the motivation to change the path of your life as well. Tua Viso was a part of the metamorphosis.

And when you try a product like Tua Viso, you have to recognise there is a need. And it's not just to straighten up a droopy lip; its part and parcel of something else you need to do for yourself. You see a need in yourself that is much more than exercising your face. Tua Viso fits in with all the other things I've done to renew my life.

Beauty isn't everything but when you feel outwardly beautiful, it gives an inward strength to a woman. It's phenomenal what that does for your mentality. It made me realise that it isn't true you can't be a beautiful woman just because you're past the age of 50. I do feel like a beautiful woman. Now I have some control over how I look.

Using Tua Viso is empowering."

Now You Can Feel Empowered Too!

I really want you to experience this. Because sharing Tua Viso with others has practically become my mission in life. I truly want to help people have better lives. I want you to tap into your inward strength of a beautiful woman.

So I'm delighted to offer you a fabulous opportunity to try Tua Viso for 90 days and put it to the test.

Tina, I want to feel empowered!

Please be sure you check out the entire programme, including the demo DVD. It will guide each step of the way. Give your face an amazing workout and see for yourself how simple and easy Tua Viso is to use.

Here's what you will get with the Tua Viso outfit:

- Tua Viso non-surgical facelift
- A 9V alkaline battery already fitted for use
- Water dispensing bottle
- Spare sponge dome kit
- Operation and application manual
- Quick reference mini-handbook
- Stylish case
- And a demo DVD

You'll master this simple programme in just a few days. And you'll be seeing such fabulous results you'll eagerly invest 30 minutes a day to make sure it continues!

Tina, I want to see fabulous results!

Results such as these...

- A face that has a more lifted, toned, and sculpted look
- Wrinkles that are diminished in appearance; softened like smoothed out silk
- Skin that is plumper and thicker in appearance
- Under eye bags noticeably improved, and for some, virtually eliminated
- Dewy, radiant skin that just... glows.

The key to a more youthful you is right at your fingertips. There really is no reason to wait a minute longer.

I'm certain you'll be absolutely thrilled with Tua Viso, but if you don't agree, no problem.

If you're not 100% satisfied I'll refund your money in full. That's my Iron Clad 90 Day 100% Satisfaction Money Back Guarantee to you.

Tina, I don't want to wait a minute longer!

It Gets Even Better....

When you decide to try the Tua Viso programme, you get the peace of mind that comes from knowing I am one of Britain's leading anti-ageing experts. With my credentials, you can rest assured that I'm offering a solution to your aging concerns that really works.

The price for this incredible anti-ageing breakthrough is £179 (RRP £199.99). And once you have it, it's yours to keep and use for a very long time. You probably fiddle away that much in a few months on pots of creams that won't do a thing to truly make you look younger.

(Quick note: Please do be aware of cheaper Tua Viso imitations; only purchase a Tua Viso from an authentic UK supplier such as Tina Richards Ltd).

And try going to a beauty salon on a regular basis for anti-ageing treatments at that price. I'm afraid it's not likely to happen. If you go to a nice salon, you can spend quite a bit of money, and then turn around and do the same thing in a couple of weeks. It's madness!

Not to mention the literally thousands of pounds you'll save in cosmetic surgery!

And there's more... In addition to my 100% risk free guarantee, I want to make sure you have everything you need to get started on your new look right away. When you order Tua Viso right now, I'm going to give you...

30 Free Extra Tua Viso Replacement Sponges!

These sponges fit on the electrode domes of your Tua Viso. They are an important aspect of Tua Viso's unique patented design and are hand washable so a pack of 30 will last you up to a year! I wouldn't want you to miss a day using your new Tua Viso, so I'm going to make sure your Tua Viso is fully equipped and ready to go when you are.

(This is a £14 value)

Tina, please send me Tua Viso now!

Tua Viso Will Make A Difference In Your Life

Believe me, I wouldn't be here if I had any doubt at all that it were so. Because we're talking more than a 30 minute exercise for your face. It's all about how you see and feel about yourself... and how others see you as well.

I know you'll be thrilled with what Tua Viso has to offer. But remember, if you don't agree, you have my 100% satisfaction 90-day money back guarantee.

And quite simply, if you decide Tua Viso isn't for you, I don't want your money.

Please don't miss this opportunity. The cost of Tua Viso is just £179. In a month's time, that's a mere £6 a day. Think of all the money you fritter away on silly things for that price.

Plus, I've included a fabulous bonus gift for you – that will set and keep you on a smooth path to your personal “fountain of youth.”

If a little voice inside you is whispering “do this”, please listen! Don't waste one more day simply dreaming about how your life could literally transform when you're confident and youthful again. See for yourself!

You have everything to gain and absolutely nothing to lose.

To a more youthful you,

Tina Richards

P.S. You know, you could keep investing hundreds of pounds in “miracle” lotions and potions that never get you any closer to the youthful look you want. Tua Viso will give you a younger looking, more vibrant appearance – and the self-confidence - you had many years ago.

P.P.S. Imagine how you'll feel when you look in the mirror and see a 'new you' in your reflection... or when your friends and family say to you “Seriously, what have you done for your face – you look fantastic!” It could happen starting today.

P.P.P.S. Remember, when you order Tua Viso, all you have to do is give us a call at 0845-434-7990!
